

Courtney Jo Young

Versatile Software Developer with experience in developing, designing, and deploying complex software applications. Specializes in .NET, Back-End and Front-End Languages and cloud development.

EXPERIENCE

PAR Excellence Systems, Cincinnati, OH

Front-End Developer Co-op

MAY 2019 - MARCH 2020

- Executed and contributed to full-stack web application development, with an emphasis on front end features, User Experience, DOM manipulation, and cross-browser compatibility
- Collaborates with the software development team on the execution of cloud applications that facilitate databases and hardware to manage inventory in a multitude of healthcare locations
- Utilized .Net Core, C#, SQL and Javascript to engineer wireframes that portrayed the user interface and experience of the cloud application

Alpha 1 Media Group, Pittsburgh, PA

Front-End Software Developer Co-op

JANUARY 2017 - JANUARY 2019

- Worked alongside a team to build a custom-made Online Dating website as one of the lead software and project developers that resulted in a full production and lucrative web application with a scalable database for future expansion
- Employed mastery of computing languages and libraries (C#, JavaScript, jQuery) to create software and web applications with the deployment of linting and bundling as well as implementing the testing of applications.
- Worked in alliance with in-house software developers to create a more appealing user experience and interface that in result increased web traffic and ecommerce sales for clients
- Implemented a hosting and SQL server transfer for over a 100 website files and directories through a private FTP/SFTP access to decrease company's annual server expenses

EDUCATION

University of Cincinnati, Cincinnati, OH - Linder College of Business - *B.B.A. in Computer Information Systems*
